

## Long-standing partner relationships

Inchcape has long-standing partnerships with the world's leading automotive groups, with a core focus on manufacturers of premium and volume passenger vehicles. In select markets we also represent commercial and agricultural vehicles and machinery as well as emergent passenger vehicle brands.

The OEMs (original equipment manufacturers) with which Inchcape partners are some of the foremost drivers of technological innovation in the automotive industry, from advances in hybrid and battery electric drivetrains to future mobility solutions.
